

2FA authentication via SMS message

Step 1

After logging in to your PROFITUS account, you will be redirected to 2FA activation.

In the “Password” field, enter your latest PROFITUS account password and click the “Next” button.

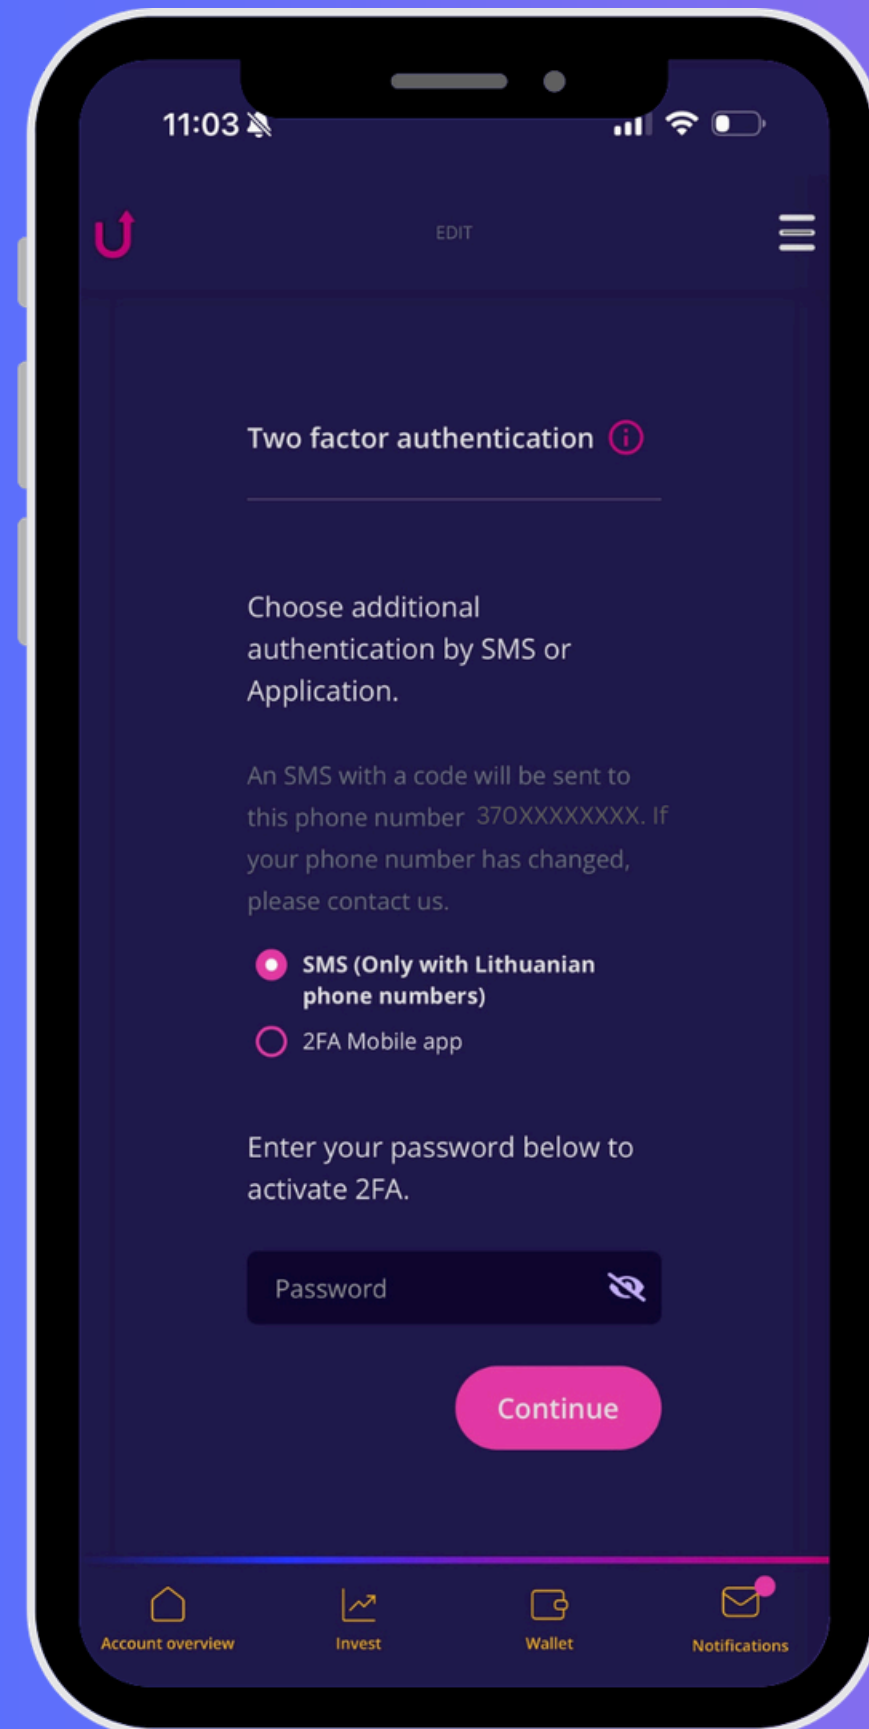

Step 1

Select additional authentication via SMS message.

Make sure the phone number to which you will receive the SMS code is correct. If the phone number is incorrect, please contact us by email: support@profitus.lt

If the phone number is correct, enter your latest PROFITUS password and click the “**Continue**” button.

PROFITUS

Step 2

You should have received an SMS message with a code to your phone number. Please check your messages, enter the received code into the field below, and click **“Confirm.”**

If you do not receive the code within 3 minutes, go back and try again.

Two factor authentication

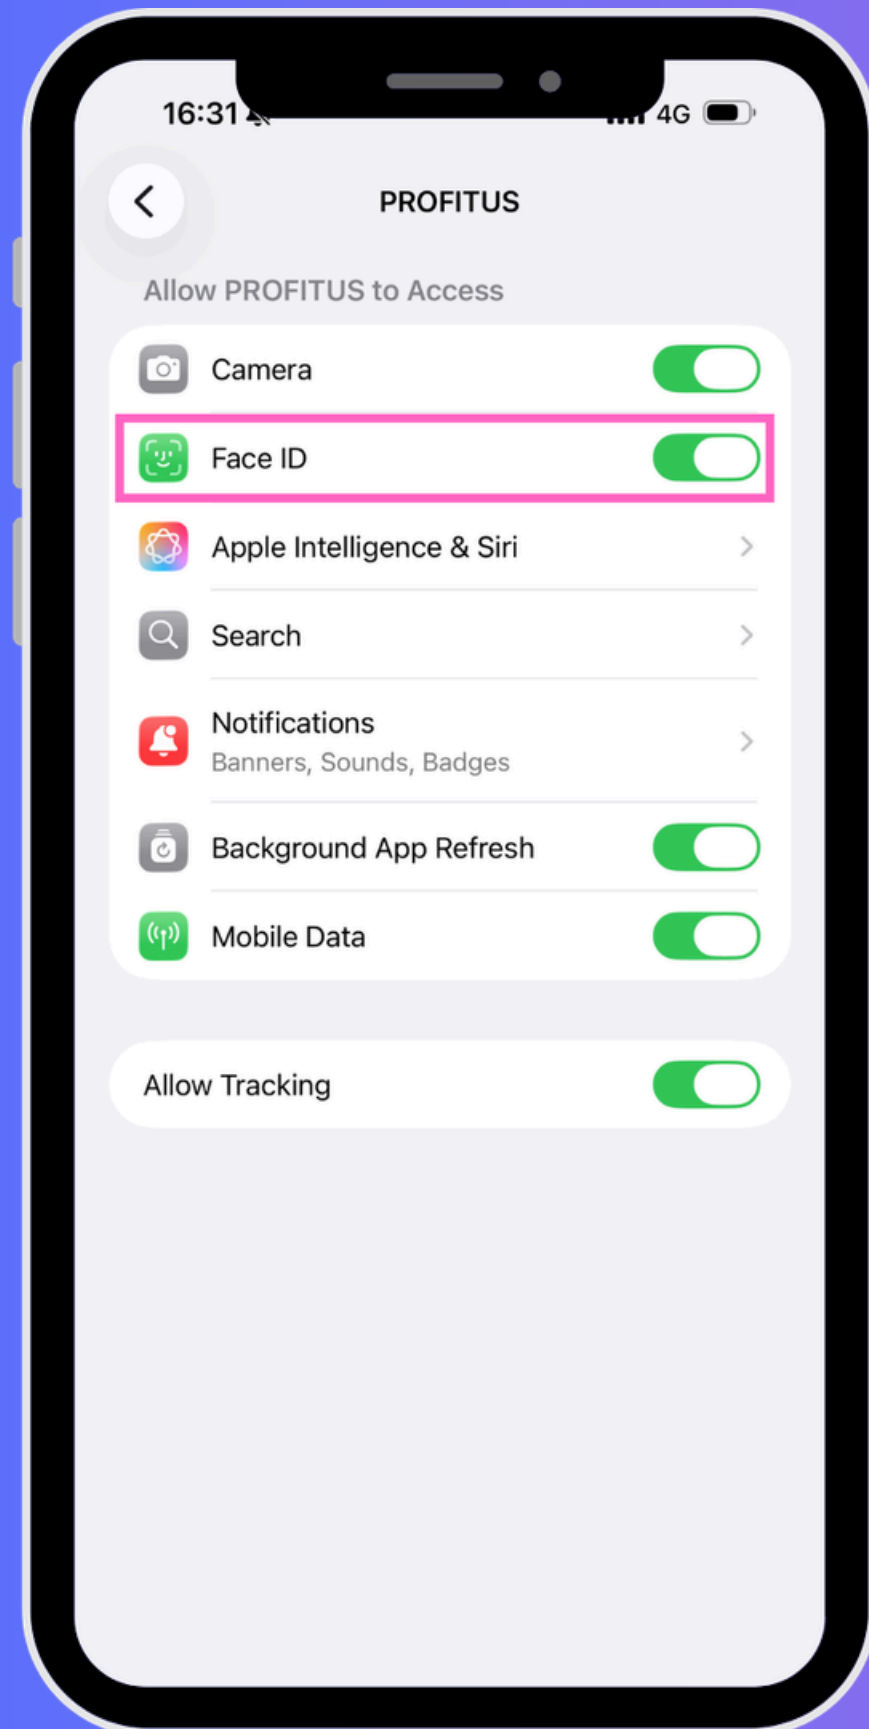

2FA authentication succesfully enabled. Now your account is more secure. From now on, every time you connect to the system, you will be asked to enter the 2FA code.

Done

Congratulations! Your 2FA authentication has been successfully enabled!

From now on, you will need to complete two-factor authentication every time you log in to your account.

PROFITUS

For more convenient use of your PROFITUS account, we recommend downloading the PROFITUS mobile app

Enable biometric login in your mobile device settings. In this case, two-factor authentication will not be required, and you will be able to log in using facial recognition or your fingerprint.

You can download the PROFITUS app from:

- 👉 App store;
- 👉 Google play

IMPORTANT! To use biometric login, make sure to grant the PROFITUS app permission to use FACE ID in your phone settings.
